EARLY WINTER FLOWERING SPENCER SWEET PEAS

Prices for delivery in the Fall of 1932 will be sent on request. We grow the best of the older varieties and all of the newer sorts.

It is with greatest sorrow that we announce to our friends the death of James A. Brown, the founder of our organization and one of the pioneers of the industry in California.

The loss to the trade is great; the loss to ourselves is inestimable. Our greatest heritage is the host of friends that he has made for us and whom we intend to keep as our own, by maintaining his high ideals of quality and service.

Eastern seedsmen are invited to visit our farms when in California. Capitola is in Santa Cruz County, 80 miles south of San Francisco on the coast line of the Southern Pacific Railroad. Our "Home Ranch" and headquarters are within one-half mile of Monterey Bay.

BULBS

TUBEROUS ROOTED BEGONIAS

There are four recognized growers of Begonia bulbs in America. We are the oldest and largest of these growers. Our stocks were personally selected by our late Mr. James A. Brown, from Europe's best fields. Parts of three years were spent in England, Belgium, France and Germany for this purpose by Mr. and Mrs. Brown.

SINGLE

GIANT SINGLE FLOWERED. These often have flowers that measure 7 inches across. Plants grow as high as 18 inches. The flowers, of waxy texture, have a glowing sheen not found in any other flower. Many people consider the Begonia unsurpassed by any other flower.

FREESIA BULBS

For seventeen years we have supplied Freesia Bulbs to first class seedmen who depend upon us each year for this service. Our prices are neither the lowest nor the highest—but the quality of the bulbs we send out is always the best.

GENUINE PURITY FREESIAS

This is the genuine northern grown Purity, not the soft tissue paper type of Purity Freesia grown by many Southern California bulb growers. Florists know the difference in shipping and keeping quality.
